	Paulomi mama gives paper pattern aur proper study material for student for better study
	Please don't be partial
	Please improve the canteen
	Please kindly.. improve canteen food and Campos .
	Some teachers should understand that students do have problems.
	Start effective class for English communication
	Start understanding students
	Take quiz games after every topic
	Communicate with students
	Discuss with students
	Teachers should be punctual
	Teaching method is already very good.
	The overall experience till now has been great!
	The overall teaching and learning experience is good
	Try to reach every student and ask for their doubts.
	Try to reach every student and ask for their doubts
	Try to reach every student and ask for their doubts. Consider rewarding your best students, organize weekly brainstorming classes, and set up fun projects that awakes an interest.
	Upload note on classroom every fast
	Use appropriate example to explain concept for better understanding
<b>FYND</b>	1. Discussion on academic performance and how it can be improved
	1. I think teachers should let us know about what is our mistakes,and where to work on it. 2.They (teachers) do support us or motivate us to go for extra curricular activities,but after coming back,they dont give us enough time for submissions,and after submissions they do deduct our marks. 3.college should promote internship programme
	1.The understanding of teachers towards long distance students incase of late coming. 2.College hours feels too long , Should have less timings.

### Student Satisfaction Survey (2022-23) (Responses)

		Improve canteen and involve more hygiene in food. Lectures should be of limited time.																		
		Learning experience in institution was very good. Learning experience was very good. Overall teaching are also good. No suggestion Nothing they all are good Pose proper opportunities, encourage, avoid partial treatment Timings of the lectures/ practicals should be atleast 8:30																		
	<b>SYND</b>	Effective teaching throughout the year, quite understandable, easy to approach mentors regarding any queries Good I think overall teaching and teaching methods are satisfactory and helpful for the students to understand and learn thoroughly If you want students to participate in events than you must give them the assurance that you will teach them whatever they might have missed instead of telling them it is something that is your choice and we won't be there. NA No No suggestions no suggestions Nothing Some field visit should be organised Timing of assignments throughout the year should be distributed equally so it won't create pressure near exam time only. Assignments should be completed and collected 1 month before exam so that we can give whole 1 month focus on exams.																		
	<b>SYRM</b>	Fair evaluation, teaching the entire syllabus, consider students problems Field trips, more intership options, teaching employability skills I am quite happy with the institution but: 1. Some teachers are not open to the opinion of the students especially the teachers currently teaching subjects like English and Communication and usually students have no say in their lectures. They make it very obvious that they are supposed to focus on their subjects. 2. I think the college should focus on current affairs and general awareness a bit in some way atleast maybe by providing a dedicated lecture to study the weekly highlights for their specific fields or maybe by conducting weekly competitions on general knowledge. 3. I think there is a need for introducing speakers in the class for important announcements which can be made from the principal's office like it is usually done in schools. The winners of an event or any competition announcement can be made there. I am satisfied with teaching and learning in institution nothing Stop targeting a student. Don't fail them due to personal grudges																		
	<b>SYHD</b>	-Should communicate with every individual -Be friendly in communication Communicate more with students... try to understand their issue more effectively.... don't be unfair. Everything is great. It was good teachers mam were quite understanding and supportive throughout the year It was very good and I think there should not be any changed Learning good Creative thinking Nil																		

## Student Satisfaction Survey (2022-23) (Responses)

	No
	Not satisfied
	Nothing
	Portion completion and assignment rate is very slow Practical experience should be more Tasks should be hand over before hand
	Teacher should explain while standing and doing gestures, interacting with students, giving live examples, etc. So that the students are not bored. Teacher should give chance for students to ask queries.
	Teachers should give limited assignments and there should be fairness in internal evaluation
	The number of assignment can be reduced a little.
	understand students situation encourage them Not focus on toppers, helps weak students for study and other things..plz plz
<b>SYTSAD</b>	
	Discussions with students about their problems (teaching/learning)
	Improve classes
	Keep experiencete
	Need better theory explanation in some subjects.
	Nil

	None
	Nothing
	Try to reach every student and ask for their doubts. Ask for feedback and use it.
<b>SYFSN</b>	
	.
	If the institution can conduct more field visits
	No any problem
	Perfect notes should be provided The classroom tables should be changed because some of the tables have nails hanging. Nothing more
<b>TYRM (HM)</b>	
	1. The ollege timings should be improved. The longer lecture timings drains the capacity to do extra curricular activities. 2. Attention to be paid to the students suggestion 3. There should a consideration for the students who had health issues (mental or physical) (mental - seems to be depressed)
	All the assignments was well explained Teachers was very cooperative
	For submitting Assignment the due date should be extend.
	Give students a choice regarding specialisation. Let them focus on one specialisation from the first year itself. CBCS is CHOICE BASED but the students in the third year were not given the choice of choosing, it was directly added to the curricul

## Student Satisfaction Survey (2022-23) (Responses)

	I had quite good and positive experience
	Nil
	No
	No needed any suggestions
	No Suggestions
	Nothing
	Nothing
	Please direct students in the right direction; there used to be a lot of confusion regarding the FSN and ND streams. Many students don't want to pursue other specialisations, yet it was distributed evenly among all departments, which was unjust to some students. Then we completed the CBCS course, yet we were still unable to receive a certificate.
	Please give only those courses to the students in which they want to pursue career. Do not impose courses on them as per your convenience.
	Try to conduct more practicals than theory
<b>TYND</b>	
	1) to start and end lecture on the given time 2) to inform students before hand if the lectures are going to be cancelled 3) fairly assess everyone
	I would like to thank this college and teaching staff for encouraging me throughout my journey
	Include field visits
	Nil
	No
	Practical aspects of the field is missing
	Some teachers make a group of student their favourite and rest is ignored. There are few best teachers who guide and provide each student equal importance. Some teachers only read ppt and go whole explanation is more important of that subject
	Sometimes there is a lot of mental pressure about submission so teachers should consider that they do not over pressurise.
	Teachers should make sure that all the students have understood the concept taught and not just make sure that the students sitting at the front understood it and the groups formed for any project must be anonymous and formed by the teacher
	The 4 floor 44 room no near the washroom is too hot we can't focus on explanation during the lecture or sit during this month
	There must be more subjects regarding nutrition and dietetics feild from the first Semester.
	Try to pay more attention to the students who lacking behind.
<b>TYTSAD</b>	
	- The extracurricular activities, internships and constant efforts by teachers has helped us to explore and challenge our potential and succeed in getting excellent outcome
	1. The teaching method is good. 2. Students should be given more exposure outside the college on different levels such as student body, departments, college, etc. 3. A clear communication regarding different changes or instructions can be improved.
	Arranging more feild visits for students
	Good
	NA

<b>Student Satisfaction Survey (2022-23) (Responses)</b>													
		Sometimes all teacher give one time many works that way it get less time to complete it											
	<b>TYFSN</b>	*Acquired good knowledge about the subjects taught in class - good teaching staff and intership experience was excellent. *Very encouraging and experienced teachers *Lectures should not be kept till so long when lectures(teaching) is not going to be done.											
		1. Teachers should take some sort of class test/ mock test prior to exams. 2. Teachers should discuss the projects, exam papers, assignments so that the students can improve for the next. 3. Teachers should use effective teaching tools, which can help making the teaching learning process more interesting.											
		1. There is more focus on clinical nutrition than industry related topics in curriculum. 2. Teachers can be more supportive if any student participates in any extracurricular activity. 3. More practicals should be there in the curriculum. 4. Overall management of everything is not at all satisfactory and up to the mark.											
		1. Tough topics should be explained in detailed and slowly and multiple times. 2. Last moment teaching should be avoided. 3. Competitions and participation announcements should be done earlier and not at last moment.											
		Nil											
		No suggestions											
		None											
		Provide notes on time Provide intership places Remove CBCS course											
		Should frequently use videos to educate concepts. Theoretical knowledge should be replaced with more practical information. The computer teacher must be changed as she doesnt take lecture at all											
	<b>TYHD</b>	-hire teachers who know the ABC of research -take actions based on teachers'evaluation report											
		All good											
		Effective communication and guidance											
		Good											
		It was grt											
		It was very good experience learning from the teachers and gain knowledge to build ourselves											
		No											
		No											
		No suggestion											
		Overall teaching is very nice. From institution I get very nice learning experience.											
		Sometime Curriculum is overloade.											
		Teacher should be fair enough											
		Teacher should call ex students for guidance. Teacher should be clear with they own concepts. N should be fair with all students.											
		Teachers should give attention to students who are average in studies Also teachers should also give opportunity to average students and not only clever and smart											
	<b>SYBCA</b>												

Student Satisfaction Survey (2022-23 new) (Responses)

## Student Satisfaction Survey (2022-23) (Responses)

Should use video and practical demonstrations to explain a concept to remember it for life time and to let us know the things we are learning how to apply those in real world since it's computer "application".

Studies should be little more enjoyable

Suggestion:

1. Practical knowledge of how to use the subject in real life.
2. Syllabus should be completed before 15days of exam so that revision can be done. Notes and syllabus for exam should be provided on time, atleast 20 days before.

Observation:

Last Year we observed that most of time we would come as per the timetable but most of the teachers wouldn't take our lecture, and sometimes there wouldn't be any lecture for the whole day.

Suggestion:

1. Practical knowledge should be provided for each lesson.
2. Syllabus should be completed before 15days of exam so that revision can be done. Notes and syllabus for exam should be provided on time, atleast before 20 days.

Observation:

1. Last Yr we observed that most of time we would come as per the timetable but most of the teachers wouldn't take our lec, and sometimes there wouldn't be any lec for the whole day.

Take regular lecture on time

Give advices to all the students not only for selected students

Teacher should look after students that every student is able to understand or not while teaching in classroom.

Teachers are so soft.a

Teaching is good

They are very effective in talking

This time make some interesting on it of learning the concept lesson..

Try to reach every student

Trying to clear every student doubts

Complete the syllabus on time

Use better graphics and visual media to engage students well.

Try to reach every student and ask for their doubts.

**TYBCA**

- 1) Use better graphics and visual media to engage students well.
- 2) Try to reach every student and ask for their doubts.
- 3) Make teaching a two way interaction.

1. Prioritise student teacher relationship
2. Regular parents teacher meeting
3. Make an effort and get to know each student individually

- 1) Talk to students in soft spoken way so that they can share their problems with you easily

- 2) All teachers are very well in teaching a concept.

- 3) Help students in making assignments make groups like one is intelligent and others in groups are on average.

- 1) Give students the links and social sites from which they can understand the concept more .

- 2) Help to understand to overcome with the students in projects.

- 3) Take coding practice and test as much you can bcz after college it's really matter a lot.

Thank you!!

According to me college is providing excellent teachers for us so there is no suggestion

According to me the teaching method is proper and no improvement is required.

### Student Satisfaction Survey (2022-23) (Responses)

Active engagement due to hands exercises. Providing timely and constructive feedback Adaptive learning technologies.
After teaching each programming language its better if teachers give assignment to students to build any small project using tht particular language which learned recently. It can be demo for a final year project it will be easy for students to under
As no suggestions everything was perfect
Best institute to gain knowledge. Teachers help alot and nice environment is build to study. Can conduct more Curricular Activities to enhance students to participate in it.
Best place to learn and explore new things. Teachers are very friendly and helpful at all times. Disciplined and enjoyable environment in college.
Encourage students to learn on their own
Everything is good
Everything was best
Excellent experience
Friendly, always supportive, skill development
Give live example for solving the code that make students to invest their intrest in.
Make students comfortable and keep friendly nature
Give students that support and help them out to come up with their problems
Increase independecy of student Allow students to do their own work using multiple books Make students realize the amount of competition and whom they will be going against for them to comprehend how much effort to put
It is a great place to learn and very supportive staff
It was good
Its well
Just be more supportive to students if they want any help for anything.

Thank you

## Student Satisfaction Survey (2022-23) (Responses)

The educational system that is followed in our college is very effective with all the updated technologies been taught. There is nothing to improve.  
 To provide notes, syllabus for class test ,unit test , practicals as soon as semester starts so that preparation is done simultaneously as teacher will teach the chapters  
 To provide atleast a holiday between semester exams  
 To particularly focus on weaker students and encouraging them instead of those who are already good in studies...(neetu mam did a great job in creating extra classes for weaker students)

**MSc CND I**

Quality of work essential rather no of hours in college

1. Providing more materials
2. Latest research based knowledge/ assignments

1. Sometime student has to overdo studies it's very headache.

1. Teach slow, at the student's pace of listening and understanding rather than running fast just to finish the portion.
2. Punctuality.
3. Continue with conducting quizzes/tests after each chapter.

- 1.To include more practical based examples in theory session like different approaches, updates etc for a specific conditions
- 2.Give daily or every alternative days Task in terms of to read specific topic & later discussion in further classes , case studies
3. Test (written) every 15days to check if we understood the concept efficiently

- 1) more practical knowledge in clinical setting
- 2) hospital visits
- 3) guidance on future (example : how to prepare for RD exams or what is the procedure for NET & SET exam)

At the beginning to each new session some revision from the previous class should be done.  
 Mentoring sessions must b conducted and students must be guided about various employment opportunities  
 Information about various entrance exams should be provided

Every teacher is doing her best and I'll do my best to improve my performance

Exam should not be conducted after vacations (like semester exam after diwali and 2nd unit after Christmas vacation)  
 Provide separate study leave.

I don't think there is a need as overall teaching - learning process is already great.

It's perfect

Na

NA

No changes needed

None

None

Providing valuable feedback for improvement

Share notes  
 Practical aspect  
 Preparation for interview

Shorter time gaps between the lectures

Should provide study material should be more effectively explain all the concepts should improve teaching and communication skills

Tests can be taken regularly

Timely lectures to be conducted, discussion of exam papers

Understand the issues of the students

Use more visual aids  
 practical based learning

**MSc CND II**

- more field visits for practical knowledge
- Hormonal conditions can be added in the syllabus

## Student Satisfaction Survey (2022-23) (Responses)

	<p>1. Soft skills development course                  2. Sessions by eminent professionals from the field and insights into the future job opportunities                  3. Field visits</p>
	<p>1.notes should be provided so that it would be easy to go through and our time will be saved                  2.weekly test should be taken so will be easy in our exams                  3. Clear concept</p>
	<p>Be punctual about timing                  Clinical Nutrition student should get a field visit at Hospital to understand the working                  Concepts are very well explained</p>
	<p>Could include more practical field work than theory in certain subjects like sports nutrition, geriatric nutrition and public health nutrition                  Deep (in detail) explanation of the chapter, more practical study.                  Efforts are required, give exposure, need to be little student friendly                  Everything is good...no suggestion                  Good teachers, good learning</p>
	<p>I strongly believe in fostering an inclusive environment that embraces diverse approaches to academic pursuits, valuing students for their individuality rather than judging them based on conventional standards. Let us cultivate an open-minded atmosphere.                  It was good                  More field visits                  More field visits, more case studies                  More opportunities for campus placement</p>
	<p>More practical approach                  IV often                  More job opportunities</p>
	<p>More practical learning is necessary                  Visits can be added to gain more practical exposure                  PPTs can be shared prior so that students can be prepared during class and will help in better understanding                  More transparent                  NA                  No                  No suggestions                  None                  Nothing                  Nothing                  Nothing to suggest</p>
	<p>Ppt/notes sharing in Google classroom for better understanding                  Practical perspective of understanding a disease like identifying biomarkers for diagnoses                  Correlating diseases, biomarkers and medicines to provide better diet.                  Association of MNT, Biochemistry, Vitamins and Minerals in-order to sum up a case study                  Extension of internship period to 3 months                  Teachers are interactive and approachable                  The learning experience was very good. The teachers were very supportive and motivated for always improving better.</p>
	<p>Use more of ICT tools                  Teach the topic first and then ask the students to write the notes</p>
	<p>Using more of real life examples</p>
<b>PGDECE</b>	<p>It's excellent</p>
